USA**Toro Canyon Park Road, California**

California living at its best. This modern masterpiece by Los Angeles architect Barbara Bestor offers unparalleled views of ocean, islands and mountains in a completely private setting on 160 acres of unspoiled wilderness. Newly constructed and designed for entertaining and relaxation, with custom glass walls that slide away to bring the outdoors in. The centre of the home is a loft-like space, anchored by an open kitchen with European-style cabinetry. On one side, a 25-Ft. telescoping glass door retracts to reveal a panoramic view of the entire Santa Barbara coastline, leading into a lush courtyard with fireplace. The master bedroom has an ensuite spa bath complete with Japanese-style soaking tub and steam shower. Two additional bedrooms offer a shared full bathroom, media room, powder room, and yoga room with a private garden. A separate guest house sleeps up to four comfortably.
